Profile

AI & Data Science Specialist with a focus on Computer Vision and Deep Learning. Published IEEE researcher with 95.3% accuracy in SAR image detection. Expertise in building end-to-end ML pipelines, optimizing Vision Transformers (ViT), and deploying real-time AI solutions using Flask and API integrations.

Education

Velagapudi Ramakrishna Siddhartha Engineering College Vijayawada, India
Bachelor of Technology in Artificial Intelligence and Data Science; CGPA: 8.85 Nov 2022 – May 2026

RESEARCH & PUBLICATIONS

- Detection of Aircraft from SAR Images Using Deep Neural Networks** [GitHub](#) [↗](#)
- Authored and published paper using enhanced YOLOv8 + GLCM/CLAHE on TerraSAR-X dataset (844 images); achieved 95.3% accuracy, 93% precision, 91% F1-score in noisy environments.
 - Replaced color features with texture analysis for robustness against weather/urban noise.
 - DOI: [10.1109/INSPECT63485.2024.10896234](https://doi.org/10.1109/INSPECT63485.2024.10896234) [↗](#)

Projects

- Face recognition using Vision Transformers (ViT)** [GitHub](#) [↗](#)
- Optimized Vision Transformers using Haar Cascades on a 2,100-image dataset; achieved 98.24% accuracy in face recognition.
 - Designed low-latency ROI detection pipeline enabling high-density, real-time face tracking.
- Train Wagon Anomaly Detection** [GitHub](#) [↗](#)
- Developed and deployed a YOLOv8 + OpenCV system for detecting anomalies in train wagons on live video streams.
 - Added Telegram alerts; reached 96.6% accuracy with approximately 2s inference.
- Behavioral change monitoring software**
- Built Flask dashboard with GPT-4/NLTK for real-time multi-class sentiment analysis; optimized preprocessing to cut API costs, visualized trends in Matplotlib/Seaborn.

Technical Skills

Programming & Data Science: Python (Pandas, NumPy, scikit-learn), SQL (MySQL), Java, C.
Deep Learning Frameworks: PyTorch, TensorFlow, Transformers (ViT).
Automation & Process Analytics: RPA fundamentals, workflow automation, process optimization.
NLP & Generative AI: LLM API Integration (GPT-4), Sentiment Analysis, NLTK, Prompt Engineering.
Data Analysis & Visualization: Microsoft Excel, Power BI, Tableau (basic).
Deployment & MLOps: Flask, RESTful APIs, Git (Version Control), GitHub.

Certifications & Accomplishments

- Achieved Finalist position in the Smart India Hackathon 2023, a national hackathon conducted by the Indian government.
- **Certifications:** Infosys AI/Deep Learning, Oracle Database.
- Volunteered with Make A Difference to teach Mathematics to students in Grades 5 and 7, contributing to their academic growth through structured lessons and mentorship.
